Maximum loaded travel height from road surface: <i>(in metres, calculated to nearest centimetre)</i>	Maximum loaded vehicle width: <i>(in metres, calculated to nearest centimetre)</i>
Maximum loaded vehicle length: <i>(in metres, calculated to nearest centimetre)</i>	

Timing details

Commencement of transport	Date <i>(dd/mm/yyyy)</i> :	Time <i>(24 hour format)</i> :
Completion of transport	Date <i>(dd/mm/yyyy)</i> :	Time <i>(24 hour format)</i> :

Request to transport high loads under Santos GLNG High Voltage Infrastructure

Route details

From (*Origin*):

To (*Destination*):

Via (*Roads to be used*):

Route plan attached: Yes No (*Email your route plan with your request to ALC@santos.com*)

Scoping details

The route must be assessed/scoped by a qualified person (as defined by the Electrical Safety Code of Practice 2010 – Working Near Exposed Live Parts) within 28 days prior to transport.
(*Email any supporting documents with your application to ALC@santos.com*)

Qualified scoping/assessing person's name:

Date route scoped/assessed (*dd/mm/yyyy*):

This load (i) does not require an escort Yes No

(ii) will be escorted by a qualified service provider Yes No

Land access

Land access approval must be obtained prior to receiving approval for the movement of high loads over private property. Contact the Santos Land Access Team for further guidance.

Land access authorised for all private property to be traversed on planned route Yes No
(*If answer is no - do not submit form as the request will not be processed*)

Authorised by (*Adviser's name*):

Date authorised (*dd/mm/yyyy*):

Other approvals

You may need approval from other organisations. It is your responsibility to obtain any necessary approvals prior to undertaking the activity. Typical organisations that may require information from you, or you may need to obtain approval from are:

- Queensland Police (loads which require pilot vehicles etc.)
- Local Government (transport on Council controlled roads)
- Department of Main Roads (transport on Main Roads controlled roads)
- Other utility companies (i.e. Powerlink, Ergon Energy for loads over 4.6m high)
- Rail operators (crossing a railway/cane train line)

Request to transport high loads under Santos GLNG High Voltage Infrastructure

Conditions of application

1. The signatory warrants that he/she is authorised to sign on behalf of the company undertaking the work.
2. Santos GLNG does not accept any responsibility for damage to or repair work resulting from the activities carried out by the applicant or a person acting on behalf of the applicant.
3. The applicant is responsible for all aspects of activity and the safety of third parties.
4. Any permits required by other authorities e.g. Queensland Police, must be obtained prior to the commencement of the activity.
5. The Notifier should notify Emergency Services of any traffic control or long delays which may effect their response times. Any conditions or issues relating to the activity which are to be imposed by the Emergency Service are to be made available to Santos GLNG if required.
6. Public liability insurance cover with a reputable insurer must be in place prior to the activity commencing.
7. If traffic control or road signage is to be used, the Notifier must engage qualified Traffic Controllers to assist in the traffic control.
8. On completion of the works, the road and surrounding infrastructure must be left undamaged. Should any damage occur to Landholder property or Santos GLNG managed or owned property, it must be notified to Santos GLNG and repaired to our satisfaction cost of the applicant.
9. The applicant must contact Santos GLNG and receive approval prior to transport should there be any changes required to operating times and dates or for any other adjustments to the original approval.

Declaration

By submitting this form you consent to agree to the terms and conditions identified above and declare all information provided to be accurate and correct.
