

Section 7**Gas Transmission Pipeline Environmental Values and Management of Impacts****7.15 Economics**

Based on examination of the available data, it was apparent that the gas transmission pipeline and CSG fields study area were very similar in industrial composition and other characteristics. Furthermore, it was not possible to accurately disaggregate the SLA data for these regions. For the purposes of the study therefore, these two regions were merged to form the gas transmission pipeline/CSG fields region. The results of the economic assessment for this region are reported in Section 6.15.

7.15.1 Introduction

Refer to Section 6.15.1.

7.15.2 Methodology

Refer to Section 6.15.2.

7.15.3 Regulatory Framework

Refer to Section 6.15.3.

7.15.4 Existing Environmental Values

Refer to Section 6.15.4.

7.15.5 Potential Impacts and Mitigation Measures

Refer to Section 6.15.5.

7.15.6 Summary of Findings

Refer to Section 6.15.6.
