## **BAYU-UNDAN SUSPENSION OF OPERATIONS INDEPENDENT VALIDATION AND VERIFICATION SERVICES**

Santos NA (19-12) Pty Ltd (Santos) is the operator of the Bayu-Undan Facility, located in Timor-Leste offshore waters.

Santos is currently assessing requirements for Suspension of Operations activities following Bayu-Undan cessation of production.

Recognising that the Bayu-Undan Suspension of Operations campaign will be carried out under exclusive Timor-Leste jurisdiction, Santos wishes to identify opportunities for activities to be conducted out of Timor-Leste either through direct local participation or through participation of Timor-Leste companies through partnership or alliance models.

Santos is now seeking expressions of interest from companies who are a duly incorporated entity under the laws of República Democrática de Timor-Leste and who are:

1. capable of directly providing the referenced goods or services to the Oil and Gas Industry and meet the minimum requirements listed; or
2. in partnership or alliance with other entities that are capable of providing the referenced goods or services, and who meet the minimum requirements listed.

Santos notes that the Bayu-Undan Suspension of Operations Project is still in the assessment phase, and this Advertisement does not bind any party to proceed with further contracting activities in respect of any of the work scopes detailed below.

### **Independent Validation and Verification Services**

There are a number of Validation and Verification activities that will require the services of an Independent Verification Body (IVB). Project activities include:

- Suspension of production
- Well isolation
- De-inventorise
- Purging, Flushing, and Cleaning
- FSO removal and tow from field
- Subsea infrastructure removal
- Cessation of SCE maintenance
- Preparing for normally unmanned facilities

### **Independent Validation & Verification & Scope includes:**

- Regulatory Validation in accordance with ANPM Safety Case Regulations
- Development of a written Verification and Validation scheme
- Hazard removal and cessation of maintenance Verification
- Design, Installation, and Hookup Verification
- Issuance of Validation and Verification records and certification

## Minimum Requirements:

IVB Organizations will need to generally meet the membership requirements of the International Association of Classification Societies available at:

<https://iacs.org.uk/publications/membership-criteria-guidance-and-procedures/>

- An organization consisting of; Lifting, Structural, Mechanical, Piping, Pipelines & Risers, Materials, Fire & Safety, Process, Corrosion, Electrical & Instrumentation, Control Systems, Geotechnical, and Subsea Engineers recognized as subject matter experts, with a minimum of 10 years experience.
  - Engineers should have formal qualifications: Chartered Engineer, Professional Engineer or equivalent, with 10 years relevant industry experience.
- Organization with a track record of similar Validation and Verification works on offshore oil & gas projects.
- Organization with a comprehensive quality and competency management system.
- Organization operating a comprehensive document management system.
- Organization independent of other project scopes – design reviews, inspection or testing of equipment being validated or verified
- Organization with sufficient personnel to ensure the work can be conducted through to completion

Companies who meet, or who are partnered or in alliance with companies who meet, all of the minimum requirements listed are invited to submit their written expression of interest by email or hand delivery no later than **Friday, 30<sup>th</sup> of September 2022** for the attention of **Reinalda Pires, Timor-Leste Engagement Coordinator**
